

Neha Sample

Senior Software Engineer | 7 years | Java, Spring Boot, Microservices, AWS

Bengaluru, Karnataka | neha.sample@example.com | +91 9XXXX XXXXX | linkedin.com/in/[your-profile]

PROFESSIONAL SUMMARY

Senior software engineer with 7 years of experience building and running Java microservices for payments and e-commerce products. Led the migration of a monolithic order system to Spring Boot services on AWS, mentored a team of four engineers and improved release frequency from monthly to weekly. Looking for a senior or lead backend role in a product company.

[3–4 lines: years of experience, domain, strongest skills and one result. Rewrite the last line for each application.]

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Apr 2023 – Present

Fabrikam Software India Pvt. Ltd., Bengaluru

- Led a team of 4 engineers that split a monolithic order-management system into 9 Spring Boot microservices deployed on AWS EKS.
- Cut average checkout API response time from about 900 ms to 350 ms by adding Redis caching and rewriting slow SQL queries.
- Introduced contract testing and a staged CI/CD pipeline in Jenkins, moving releases from monthly to weekly with fewer rollbacks.
- Designed an idempotent payment-retry service that reduced duplicate-charge support tickets by roughly 40%.
- Interviewed 30+ backend candidates and ran a fortnightly design-review session for the wider engineering team.
- Wrote runbooks and on-call alerts in Grafana that shortened the time to detect production incidents.

Software Engineer

Jul 2020 – Mar 2023

Contoso Technologies Pvt. Ltd., Pune

- Built REST APIs in Java 11 and Spring Boot for a B2B invoicing product used by 1,200 business customers.
- Implemented GST-compliant e-invoice generation and integration with a government-approved invoice registration portal.
- Moved scheduled batch jobs from cron scripts to Spring Batch with retries and monitoring, removing weekly manual reruns.
- Raised unit-test coverage of the billing module from 35% to 75% using JUnit 5 and Mockito.
- Worked with product managers and QA in two-week Scrum sprints; demoed features to customers during release reviews.

Associate Software Engineer

Jul 2019 – Jun 2020

Northwind Systems, Hyderabad

- Developed and maintained modules of an internal HR portal using Java, Spring MVC and MySQL.
- Fixed production defects within agreed support timelines and documented root causes for the team wiki.
- Completed the company's six-month graduate engineering programme with an 'Exceeds expectations' rating.

[Most recent job first. 3–6 bullets per recent role, fewer for older ones. Start each bullet with a verb and include a number where you honestly can.]

SELECTED PROJECTS

Order Platform Re-architecture | Spring Boot, Kafka, AWS EKS

2023 – 2024

- Defined service boundaries, event contracts and a strangler-pattern migration plan approved by the architecture board.
- Ran the cut-over in four phases with feature flags, so customers saw no planned downtime.

GST E-invoicing Module | Java, Spring Batch, PostgreSQL

2021 – 2022

- Owned the module end to end, from requirement workshops with finance users to production support.
- Built reconciliation reports that let customers match generated invoices against their accounting records.

[Optional. Add 1–3 projects only if they show scope or ownership that your job bullets do not.]

KEY SKILLS

Languages: Java 8–21, SQL, Python (scripting)

Frameworks: Spring Boot, Spring Batch, Spring Security, Hibernate/JPA

Architecture: Microservices, REST, event-driven design (Kafka), caching (Redis)

Cloud and DevOps: AWS (EC2, EKS, RDS, S3, SQS), Docker, Kubernetes, Jenkins, Terraform basics

Data: PostgreSQL, MySQL, MongoDB
Practices: Code review, TDD, contract testing, incident management, mentoring

EDUCATION

B.E., Information Technology

2015 – 2019

Sample College of Engineering, Hyderabad | CGPA: 7.9/10

[After 3–5 years of experience, Class X and XII details are optional unless the employer asks.]

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate, 2024
- Oracle Certified Professional: Java SE Programmer, 2021

AWARDS

- Engineering Excellence Award, Fabrikam Software, 2025
- Spot award for e-invoicing launch, Contoso Technologies, 2022
